

The following page(s) are extracted from multi-page Kuhnke product catalogues or CDROMs and any page number shown is relevant to the original document. The PDF sheets here may have been combined to provide technical information about the specific product(s) you have selected.

Hard copy product catalogues, and CDROMs have been published describing Kuhnke Pneumatics, Solenoids, Relays and Electronics; some divided into different books. A list of current publications is available on this web site or from our sales offices. Some may be available for download, but as substantially larger files.

# CNOMO cylinders

Ø 32 - 320 mm

This catalogue is primarily intended for design and development engineer.

It is not an indication of delivery possibilities.

The indicated data only serve the description of the product, they are not to be understood as the guaranteed quality of the product in legal terms.

Agreements as to the quality of the product are reserved to the proper contractual relationship.

Claims of damages against us - on whatever grounds - are excluded, except in instances of deliberate intent or gross negligence on our part. Reproduction, even on extracts only with the author's approval.

We reserve the rights of modification, omission, error.

**Technical Data**

Pressure range: 1 - 10 bar

Ambient temperature range:

NBR seals: -10°C, +80°C

Viton® seals: -10°C, +150°C

Operating medium: compressed air, prepared

Lubricant: not necessary

Max stroke: 3000 mm

**Materials:**

Tube: round anodized aluminium

Tie-rods: galvanized steel

Covers: aluminium die-cast (painted)

Piston rod: C45 chromium-plated steel  
 (stainless steel AISI 304)

Piston: NBR rubber block (with or without  
 magnet)

Viton® rubber block (Cnomo std)

Viton® seals (Cnomo magnetic)

Seals: NBR rubber

Viton®

Please consider in case of Viton® seals on magnetic version, the range of temperature is limited by the magnetic ring: in this case the upper limit is 100°C.

Stroke tolerance:            Ø 32 - 50
